WORK EXPERIENCE

Solution Developer
Tata Technologies

01/2023 - Present   *Pune, Maharashtra*

Tasks
- Contributed to the Cost Engineering Hub Application at Tata Technologies, a project for Tata Motors Passenger Vehicles Ltd and Tata Passenger Electric Mobility Ltd. Developed new features and enhanced existing ones based on client requirements.
- Integrated React.js to build modern, interactive user interfaces, significantly improving user experience and application responsiveness.
- Developed dynamic client-side functionality using JavaScript and jQuery, improving user interaction and application performance.
- Designed and implemented user interfaces with HTML, CSS, and Bootstrap, focusing on responsive design and user-centric improvements.
- Executed server-side scripting with Perl and managed databases with MySQL, ensuring efficient data operations and robust backend functionality.
- Leveraged a technology stack including Perl, MySQL, JavaScript, AJAX, jQuery, HTML, CSS, Bootstrap, and React.js to deliver scalable and impactful web solutions.

Skilled Graduate Engineer Trainee
Tata Technologies

01/2023 - 12/2023   *Pune, Maharashtra*

Tasks
- Managed full-stack development using HTML, CSS, JavaScript, and MySQL.
- Supported new feature development, bug fixes, and application testing across multiple web projects.
- Contributed to feature enhancements and performance optimizations, increasing overall application efficiency.
